Dear Alternative Strategies Income Fund Shareholders,

We want to thank you for your investment in the Alternative Strategies Income Fund (the “Fund”). We appreciate the trust you have placed in SCG Asset Management and this unique investment strategy. The Fund is a continuously offered, non-diversified, closed-end management investment company that operates as an interval fund. We seek to take advantage of volatility in the equity markets by constructing a diversified portfolio of laddered, short-term, structured notes that can generate attractive coupon yields when the underlying reference asset trades within a predetermined price range. This letter addresses the Fund’s fiscal year ended June 30, 2026.

The Fund continues to be fully invested in a proprietary equity-linked structured note strategy. The Fund pays SCG Asset Management a fixed management fee of 1.50% of the Fund’s average daily net assets.

As of June 30, 2026, the Fund’s portfolio consisted of approximately 95% structured notes, and 5% cash. The performance of the Fund’s Class A, Class C and Class I shares for the fiscal year ended June 30, 2026 was 8.96%, 8.16% and 9.05%, respectively. The Fund’s performance is presented net of fees but does not reflect sales load charges for the Class A shares. The annual distribution for Class A shareholders for the fiscal year ended June 30, 2026 was 25.49% and is based on the quarterly distribution amount divided by the Net Asset Value on the distribution date as detailed in the schedule on the next page. The performance of the Bloomberg U.S. Aggregate Bond Index, the S&P 500 Total Return Index, and the NASDAQ Composite Index for this same time period was 3.79%, 22.32%, and 28.69%, respectively. **Past performance does not guarantee future results.** The Bloomberg U.S. Aggregate Bond Index is an unmanaged, market-value weighted index comprised of taxable U.S. investment grade, fixed rate bond market securities, including government, government agency, corporate, asset-backed, and mortgage-backed securities between one and 10 years. The S&P 500 Total Return Index is an unmanaged non-investable index, with no defined investment objective, of common stocks designed to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries. The index includes the reinvestment of dividends. The NASDAQ Composite Index is a market capitalization-weighted index of the approximate 2500 equities listed on the NASDAQ stock exchange. The index contains companies in the information technology sector. Excluding Fund level expenses, total profit for the year ended June 30, 2026 from the structured notes was approximately \$1,495,000. The structured notes, while marked-to-market daily, only realize losses at maturity if the price of the underlying referenced equity is below the barrier. Otherwise, each note will return 100% of the principal, plus interest, at maturity.

During the fiscal year ended June 30, 2026, the Fund received interest payments from the structured note portfolio totaling approximately \$3,802,000. As of June 30, 2026, the Fund’s portfolio consisted of twenty-five structured notes. Three of the structured notes held on June 30, 2026 did not make coupon payments on their previous observation date as a result of the price of the underlying stock being below the barrier threshold on the observation day. If the price of the underlying stock on these notes is above the barrier threshold on their next observation dates, the coupon payment will be made, not only for the current coupon payment period, but also for the previously missed coupon payments. There were thirteen notes that matured during the year. The underlying stock of three of these notes traded below the barrier threshold on maturity. The Fund received \$5,339,752 of the \$6,250,000 total principal for the thirteen notes maturing during the fiscal year ended June 30, 2026. Twenty-eight notes were called during the fiscal year ended June 30, 2026 as a result of each note’s underlying stock price exceeding the issue price on the note’s observation date. For each of these notes, the Fund received the full principal amount plus the interest for the period.

The Fund’s current annual distribution rate for Class A shares for the year ended June 30, 2026 is 25.49%.

Sincerely,

SCG Asset Management LLC

Dividends and distributions are not guaranteed. The annual distribution for Class A shareholders for the fiscal year ended June 30, 2026 was 25.49% and is based on the quarterly distribution per share divided by the Net Asset Value (NAV) on the distribution date as detailed in the schedule below. The distribution yield for each quarter is added together to get the annual distribution yield.

Distribution Date	NAV per Class A Share	Distribution per Class A Share	Distribution Rate
9/15/2025	\$15.06	\$0.9820	6.52%
12/15/2025	\$13.82	\$0.8566	6.20%
3/16/2026	\$11.30	\$0.7774	6.88%
6/15/2026	\$13.02	\$0.7665	5.89%
Total			25.49%

Distribution Rates will vary. Distribution amount includes net investment income and return of capital. Distribution amount is not indicative of fund performance. Return of capital should not be confused with yield or income.

The Fund does not constitute a balanced investment program and does not guarantee it will meet its investment objective. **Investors should carefully consider the Fund's investment objectives, risks, charges, and expenses before investing. This information is contained in the Fund's Prospectus, which may be obtained by calling 833-860-1407 or visiting www.ltafx.com. Please read the prospectus carefully before investing.** Shares of mutual funds are not deposits or obligations of any bank, are not guaranteed by any bank, are not insured by the FDIC or any agency, and involve investment risks, including the possible loss of the principal amount you invested.

Structured Note Risk. The Fund will primarily invest in structured notes, which may include investments in structured products, securitizations, and other asset-backed securities. These notes are subject to risks associated with the underlying assets; are often leveraged, which can magnify gains and losses; are highly complex, which may create valuation, liquidity, or interpretive issues; and may contain significant limitations on asserting putback or similar claims.

Liquidity Risk. The Fund is a closed-end investment company structured as an "interval fund" and designed for long-term investors. Unlike many closed-end investment companies, the Fund's shares are not listed on any securities exchange and are not publicly traded. There is currently no secondary market for the shares and the Fund expects that no secondary market will develop. Limited liquidity is provided to shareholders only through the Fund's quarterly repurchase offers for no less than 5% of the shares outstanding at net asset value. There is no guarantee that shareholders will be able to sell all of the shares they desire in a quarterly repurchase offer. The Fund's investments are also subject to liquidity risk. Liquidity risk exists when particular investments of the Fund would be difficult to purchase or sell, possibly preventing the Fund from selling such illiquid securities at an advantageous time or price, or possibly requiring the Fund to dispose of other investments at unfavorable times or prices in order to satisfy its obligations. Funds with principal investment strategies that involve securities of companies with smaller market capitalizations, derivatives or securities with substantial market and/or credit risk tend to have the greatest exposure to liquidity risk.

Higher Contingent Coupon Rates Are Generally Associated With Greater Risk of Loss. Higher expected volatility of the underlying asset reflects a greater likelihood that the asset's price could fall below a trigger level, which is typically offset by a higher contingent coupon rate. Volatility may change materially over the life of the note, and a sharp decline in the underlying asset could result in a significant loss of principal.

Comparisons to indexes have limitations because indexes have volatility and other material characteristics that may differ from a particular mutual fund. Any indexes and other financial benchmarks are provided for illustrative purposes only. The volatility of any index is materially different from the Fund. Particularly, an index has results that do not represent actual trading or any material economic and market factors that might have had an impact on the adviser's decision-making. It is not possible to invest directly in an index. Index and fund performance do not reflect the deduction of any fees or expenses.

The performance data quoted here is historical in nature. Past performance is no guarantee of future results. The investment return and principal value of an investment will fluctuate. An investor's shares, when redeemed, may be worth more or less than the original cost. Total return is calculated assuming reinvestment of all dividends and distributions. Total returns would have been lower had the advisor not waived its fees and reimbursed a portion of the Fund's expenses. The performance data does not reflect the deduction of taxes that a shareholder would have to pay on Fund distributions or the redemption of Fund shares or sales charges. The Fund's total gross annual operating expense is 4.24%, 5.00% and 4.01% before fee waivers, per the Fund's October 28, 2025 prospectus, for Class A, Class C and Class I shares, respectively. After fee waivers, the Fund's total annual operating expenses are 3.01%, 3.66% and 2.76% for Class A, Class C and Class I, respectively. Shares of Class A are subject to a maximum sales charge imposed on purchases of 4.25%.

(a) Total returns are calculated based on unadjusted NAVs.

The Bloomberg U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM pass-through's), ABS, and CMBS. The Bloomberg U.S. Aggregate Bond Index rolls up into other Bloomberg Capital flagship indices such as the multi-currency Global Aggregate Index and the U.S. Universal Index, which includes high yield and emerging markets debt. Investors cannot invest directly in an index or benchmark.

The NASDAQ Composite Index (CCMP) is a broad-based capitalization-weighted index of stocks in all three NASDAQ tiers: Global Select, Global Market and Capital Market. Investors cannot invest directly in an index or benchmark.

The S&P 500 Total Return Index is an unmanaged market capitalization-weighted index which is comprised of 500 of the largest U.S. domiciled companies and includes the reinvestment of all dividends. Investors cannot invest directly in an index or benchmark.

The performance data quoted here is historical in nature. Past performance is no guarantee of future results. The investment return and principal value of an investment will fluctuate. An investor's shares, when redeemed, may be worth more or less than the original cost. Total return is calculated assuming reinvestment of all dividends and distributions. Total returns would have been lower had the advisor not waived its fees and reimbursed a portion of the Fund's expenses. The Fund's total gross annual operating expense, including underlying funds, is 4.24%, 5.00% and 4.01% before fee waivers, per the Fund's October 28, 2025 prospectus, for Class A, Class C and Class I, respectively. After fee waivers, the Fund's total annual operating expenses, excluding acquired fund fees and expenses, are 3.00%, 3.65% and 2.75% for Class A, Class C and Class I, respectively. Shares of Class A are subject to a maximum sales charge imposed on purchases of 4.25%. The performance data does not reflect the deduction of taxes that a shareholder would have to pay on Fund distributions or the redemption of Fund shares. Performance prior to December 17, 2021 is that of the Fund's previous investment advisor who utilized different investment strategies than the Fund's current investment advisor. Alternative Strategies Income Fund

NOTES TO FINANCIAL STATEMENTS

June 30, 2026

1. ORGANIZATION

Alternative Strategies Income Fund (the “Fund”), formerly known as Alternative Strategies Fund, was organized as a Delaware statutory trust on June 15, 2010 and is registered under the Investment Company Act of 1940, as amended, (the “1940 Act”), as a non-diversified, closed-end management investment company that operates as an interval fund with a continuous offering of Fund shares. The investment objective of the Fund is to seek attractive risk-adjusted returns with low to moderate volatility and low correlation to the broader markets, through a concentrated alternative investment approach with an emphasis on income generation. The Fund pursues its investment objective by investing primarily in structured notes.

The Fund currently offers Class A, Class C and Class I shares. Class A shares commenced operations on September 28, 2010, Class C shares commenced operations on January 21, 2015 and Class I shares commenced operations on July 17, 2017. Class A shares are offered at net asset value plus a maximum sales charge of 4.25%. Class C and I shares are offered at net asset value. Each class represents an interest in the same assets of the Fund and classes are identical except for differences in their sales charge structures and ongoing service and distribution charges. All classes of shares have equal voting privileges except that each class has exclusive voting rights with respect to its service and/or distribution plans. The Fund’s income, expenses (other than class specific distribution fees) and realized and unrealized gains and losses are allocated proportionately each day based upon the relative net assets of each class.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Fund in preparation of its financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period. Actual results could differ from those estimates. The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standard Codification Topic 946 “Financial Services – Investment Companies”.

Operating Segments - The Fund has previously adopted FASB ASU 2023-07, Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures (“ASU 2023-07”). Adoption of the standard impacted financial statement disclosures only and did not affect the Fund’s financial position or the results of its operations. An operating segment is defined as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity’s chief operating decision maker (“CODM”) to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The Fund’s CODM is comprised of the portfolio manager and chief financial officer of the Trust. The Fund operates as a single operating segment. The Fund’s income, expenses, assets, changes in net assets resulting from operations and performance are regularly monitored and assessed as a whole by the CODM responsible for oversight functions of the Fund, using the information presented in the financial statements and financial highlights.

Valuation of Structured Notes - Structured notes are notes where the principal and/or interest rate or value of the structured note is determined by reference to the performance of an underlying reference asset. Underlying reference assets may include a security, a basket of equity securities, a market index or a commodity. Structured notes are valued at fair value based on daily price reporting from the counterparty issuing the structured note. Interest from Structured notes is not accrued daily, but is considered as part of the daily valuation and recorded as interest income when earned at the respective coupon payment date.

Registered Investment Companies – Investments in mutual funds are generally priced at the ending NAV provided by the applicable registered investment company’s service agent and will be classified in Level 1 of the fair value hierarchy.

Security Valuation – Securities listed on an exchange are valued at the last reported sale price at the close of the regular trading session of the primary exchange on the business day the value is being determined, or in the case of securities listed on NASDAQ, at the NASDAQ Official Closing Price. In the absence of a sale such securities shall be valued at the mean between the current bid and ask prices on the day of valuation. Short-term debt obligations having 60 days or less remaining until maturity, at time of purchase, may be valued at amortized cost.

Alternative Strategies Income Fund
NOTES TO FINANCIAL STATEMENTS (Continued)
June 30, 2026

When price quotations for certain securities are not readily available, or if the available quotations are not believed to be reflective of market value by the Advisor, those securities will be valued at “fair value” as determined in good faith by the Fund’s fair value committee using procedures adopted by and under the supervision of the Fund’s Board of Trustees (the “Board”). There can be no assurance that the Fund could purchase or sell a portfolio security at the price used to calculate the Fund’s net asset value (“NAV”).

The Fund may hold securities, such as private investments, interests in commodity pools, other non-traded securities or temporarily illiquid securities, for which market quotations are not readily available or are determined to be unreliable. These securities will be valued at their fair value as determined using the “fair value” procedures approved by the Board. The Board has delegated execution of these procedures to a fair value committee composed of one or more representatives from each of the (i) Fund, (ii) administrator, and (iii) advisor. The committee may also enlist third party consultants such as a valuation specialist at a public accounting firm, valuation consultant or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value.

Fair Valuation Process. As noted above, the fair value committee is composed of one or more representatives from each of the (i) Fund, (ii) administrator, and (iii) advisor. The applicable investments are valued collectively via inputs from each of these groups. For example, fair value determinations are required for the following securities: (i) securities for which market quotations are insufficient or not readily available on a particular business day (including securities for which there is a short and temporary lapse in the provision of a price by the regular pricing source), (ii) securities for which, in the judgment of the advisor, the prices or values available do not represent the fair value of the instrument. Factors which may cause the advisor to make such a judgment include, but are not limited to, the following: only a bid price or an asked price is available; the spread between bid and asked prices is substantial; the frequency of sales; the thinness of the market; the size of reported trades; and actions of the securities markets, such as the suspension or limitation of trading; (iii) securities determined to be illiquid; (iv) securities with respect to which an event that will affect the value thereof has occurred (a “significant event”) since the closing prices were established on the principal exchange on which they are traded, but prior to the Fund’s calculation of its NAV. Specifically, interests in commodity pools or managed futures pools are valued on a daily basis by reference to the closing market prices of each futures contract or other asset held by a pool, as adjusted for pool expenses. Restricted or illiquid securities, such as private placements or non-traded securities are valued via inputs from the advisor based upon the current bid for the security from two or more independent dealers or other parties reasonably familiar with the facts and circumstances of the security (who should take into consideration all relevant factors as may be appropriate under the circumstances). If the advisor is unable to obtain a current bid from such independent dealers or other independent parties, the fair value committee shall determine the fair value of such security using the following factors: (i) the type of security; (ii) the cost at date of purchase; (iii) the size and nature of the Fund’s holdings; (iv) the discount from market value of unrestricted securities of the same class at the time of purchase and subsequent thereto; (v) information as to any transactions or offers with respect to the security; (vi) the nature and duration of restrictions on disposition of the security and the existence of any registration rights; (vii) how the yield of the security compares to similar securities of companies of similar or equal creditworthiness; (viii) the level of recent trades of similar or comparable securities; (ix) the liquidity characteristics of the security; (x) current market conditions; and (xi) the market value of any securities into which the security is convertible or exchangeable.

The values assigned to fair valued investments are based on available information and do not necessarily represent amounts that might ultimately be realized, since such amounts depend on future developments inherent in long-term investments. Changes in the fair valuation of portfolio securities may be less frequent and of greater magnitude than changes in the price of portfolio securities valued at their last sale price, by an independent pricing service, or based on market quotations. Imprecision in estimating fair value can also impact the amount of unrealized appreciation or depreciation recorded for a particular portfolio security and differences in the assumptions used could result in a different determination of fair value, and those differences could be material.

The Fund utilizes various methods to measure the fair value of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of input are:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities that the Fund has the ability to access.

Alternative Strategies Income Fund
NOTES TO FINANCIAL STATEMENTS (Continued)
June 30, 2026

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following tables summarize the inputs used as of June 30, 2026 for the Fund’s assets measured at fair value:

Assets*	Total	Level 1	Level 2	Level 3
Structured Notes	\$ 12,014,580	\$ -	\$ 12,014,580	\$ -
Short-Term Investment	698,431	698,431	-	-
Total	\$ 12,713,011	\$ 698,431	\$ 12,014,580	\$ -

*Refer to the Portfolio of Investments for industry classifications.

The Fund held no Level 3 securities as of June 30, 2026.

The Fund had no unfunded commitments as of the year ended June 30, 2026.

Security Transactions and Investment Income – Investment security transactions are accounted for on a trade date basis. Cost is determined and gains and losses are based upon the specific identification method for both financial statement and federal income tax purposes. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Purchase discounts and premiums on securities are accreted and amortized using the effective interest method over the life of the respective securities and included in interest income.

Federal Income Taxes – The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and will distribute all its taxable income, if any, to shareholders. Accordingly, no provision for Federal income taxes is required in the financial statements.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is “more likely than not” to be sustained assuming examination by tax authorities. Management has reviewed the tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years ended June 30, 2023, through June 30, 2025, or expected to be taken in the Fund’s June 30, 2026 tax returns. The Fund identifies its major tax jurisdiction as U.S. Federal. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the year ended June 30, 2026, the Fund did not incur any interest or penalties. Generally, tax authorities can examine tax returns filed for the last three years.

Distributions to Shareholders – Distributions from investment income are declared and recorded on a daily basis and paid quarterly. Distributions from net realized capital gains, if any, are declared and paid annually and are recorded on the ex-dividend date. The character of income and gains to be distributed is determined in accordance with income tax regulations, which may differ from GAAP. These “book/tax” differences are considered either temporary (e.g., deferred losses) or

Alternative Strategies Income Fund
NOTES TO FINANCIAL STATEMENTS (Continued)

permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the composition of net assets based on their federal tax-basis treatment; temporary differences do not require reclassification. All or a portion of a distribution may consist of return of capital, shareholders should not assume that the source of a distribution is net income.

Indemnification – The Fund indemnifies its officers and trustees for certain liabilities that may arise from the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties and which provide general indemnities. The Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss due to these warranties and indemnities to be remote.

3. INVESTMENT ADVISORY AGREEMENT AND TRANSACTIONS WITH RELATED PARTIES

Advisory Fees – SCG Asset Management, LLC (“SCG”) serves as the Fund’s investment advisor (the “Advisor”). Pursuant to an investment advisory agreement with the Trust, on behalf of the Fund, the Advisor, under the oversight of the Board, directs the daily operations of the Fund and supervises the performance of administrative and professional services provided by others. As compensation for these services and the related expenses borne by the Advisor, the Fund has agreed to pay the Advisor under the Investment Management Agreement a monthly fee calculated at an annual rate of 1.50% of the average daily net assets of the Fund.

The Advisor and the Fund have entered into an expense limitation and reimbursement agreement (the “Expense Limitation Agreement”) under which the Advisor has agreed contractually to waive its fees and to pay or absorb the ordinary operating expenses of the Fund (excluding front-end or contingent deferred loads, taxes, leverage interest, borrowing interest, brokerage commissions, expenses incurred in connection with any merger or reorganization, dividend expense on securities sold short, acquired (underlying) fund fees and expenses, or extraordinary expenses such as litigation), to the extent that they exceed 3.00%, 3.65% and 2.75% per annum of the Fund’s average daily net assets attributable to Class A, Class C shares and Class I shares, respectively (the “Expense Limitation”). In consideration of the Advisor’s agreement to limit the Fund’s expenses, the Fund has agreed to repay the Advisor in the amount of any fees waived and Fund expenses paid or absorbed, subject to the limitations that: (1) the reimbursement for fees and expenses will be made only if payable not more than three years from when they were incurred; and (2) the reimbursement may not be made if it would cause the Expense Limitation (at the time of waiver/reimbursement or recapture) to be exceeded. During the year ended June 30, 2026, the Advisor waived fees of \$165,675.

The following amounts are subject to recapture by SCG by the following dates:

June 30, 2027	June 30, 2028	June 30, 2029
\$ 228,379	\$ 185,861	\$ 165,675

Ultimus Fund Solutions, LLC (“UFS”) – UFS, provides administration, fund accounting, and transfer agent services to the Fund. Pursuant to separate servicing agreements with UFS, the Fund pays UFS customary fees for providing administration, fund accounting and transfer agency services to the Fund. Certain officers of the Fund are also officers of UFS and are not paid any fees directly by the Fund for servicing in such capacities.

In addition, certain affiliates of UFS provide services to the Fund as follows:

Northern Lights Compliance Services, LLC (“NLCS”) - NLCS, an affiliate of UFS, provides a chief compliance officer to the Fund, as well as related compliance services, pursuant to a consulting agreement between NLCS and the Fund. Under the terms of such agreement, NLCS receives customary fees from the Fund.

Alternative Strategies Income Fund
NOTES TO FINANCIAL STATEMENTS (Continued)

Blu Giant, LLC ("Blu Giant") – Blu Giant, an affiliate of UFS and the distributor, provides EDGAR conversion and filing services as well as print management services for the Fund on an ad-hoc basis. For the provision of these services, Blu Giant receives customary fees from the Fund.

Distributor – The distributor of the Fund is Foreside Fund Services, LLC (the "Distributor"). Prior to December 16, 2025, Ladenburg Thalmann & Co., Inc served as the Fund's distributor. The Board has adopted, on behalf of the Fund, a shareholder services plan (the "Shareholder Services Plan") under which the Fund may compensate financial industry professionals for providing ongoing services in respect of clients with whom they have distributed shares of the Fund. Under the Shareholder Services Plan, the Fund may pay 0.25% per year of its average daily net assets of each of Class A and Class C shares for such services. For the year ended June 30, 2026, the Fund incurred shareholder servicing fees of \$14,512 and \$1,232 for Class A and Class C shares, respectively. Under the distribution plan, the Fund pays 0.75% per year of its average daily net assets for such services for Class C shares. For the year ended June 30, 2026, the Fund incurred distributions fees of \$3,697 for Class C.

The Distributor acts as the Fund's principal underwriter in a continuous public offering of the Fund's shares. For the year ended June 30, 2026, the Distributor received \$0 in underwriting commissions for sales of the Fund's shares, of which \$0 was retained by the principal underwriter or other affiliated broker-dealers.

4. RISKS

Structured Note Risk - The Fund will primarily invest in structured notes. The structured notes may include investments in structured products, securitizations, and other asset-backed securities. Among other risks, the notes (i) are subject to the risks associated with the underlying assets; (ii) will often be leveraged, which will generally magnify the opportunities for gain and risk of loss; (iii) are highly complex, which may cause disputes as to their terms and impact the valuation and liquidity of such positions; and (iv) often contain significant obstacles to asserting "putback" or similar claims against the notes.

These instruments are notes where the principal and/or interest rate or value of the structured note is determined by reference to the performance of an underlying reference asset. Underlying reference assets may include a security or other financial instrument though the Fund primarily invests in structured notes that reference the performance of a particular underlying equity security. The Fund may also invest in structured notes that reference the performance of a basket of equity securities, a market index or a commodity. The interest and/or principal payments that may be made on a structured note may vary widely, depending on a variety of factors, including the volatility of the underlying reference asset. The performance results of structured notes will not replicate exactly the performance of the underlying reference asset that the notes seek to replicate. Issuers of structured notes can vary and may include corporations, banks, broker-dealers and limited purpose trusts or other vehicles. Structured notes may be exchange traded or traded OTC and privately negotiated. Issuers of structured notes may only be required to repurchase structured notes on a "best efforts" basis. Accordingly, the Fund may not be able to sell back a structured note to its issuer at an advantageous price or time.

At June 30, 2026, the aggregate value of such securities amounted to \$12,014,580 and the value amounts to 95.5% of the net assets of the Fund.

Liquidity Risk - There is currently no secondary market for the shares and the Fund expects that no secondary market will develop. Limited liquidity is provided to shareholders only through the Fund's quarterly repurchase offers for no more than 5% of the shares outstanding at net asset value. There is no guarantee that shareholders will be able to sell all of the shares they desire in a quarterly repurchase offer. The Fund's structured notes and other investments are also subject to liquidity risk. Liquidity risk exists when investments of the Fund would be difficult to purchase or sell, possibly preventing the Fund from selling such illiquid securities at an advantageous time or price, or possibly requiring the Fund to dispose of other investments at unfavorable times or prices in order to satisfy its obligations.

Market Risk - An investment in the Fund's shares is subject to investment risk, including the possible loss of the entire principal amount invested. An investment in the Fund's shares represents an indirect investment in the securities owned by the Fund. The value of these securities, like other market investments, may move up or down, sometimes rapidly and unpredictably. The value of your investment in the Fund is based on the market prices of the securities the Fund holds. These prices change daily due to economic and other events that affect markets generally, as well as those that affect particular regions, countries,

industries, companies or governments. The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund's portfolio may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, pandemics, epidemics, terrorism, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years, such as terrorist attacks around the world, natural disasters, social and political discord or debt crises and downgrades, among others, may result in market volatility and may have long term effects on both the U.S. and global financial markets. There is a risk that you may lose money by investing in the Fund.

5. INVESTMENT TRANSACTIONS

The cost of purchases and proceeds from the sale of securities, other than short-term securities, for the year ended June 30, 2026, amounted to \$20,900,000 and \$20,289,754, respectively.

6. CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a portfolio creates presumption of control of the portfolio under section 2(a)(9) of the 1940 Act. As of June 30, 2026, Charles Schwab held 29.1%, and Gregory H Sachs, an affiliate of the Fund, held 49.6%, of the Fund and each may be deemed to control the Fund.

7. AGGREGATE UNREALIZED APPRECIATION AND DEPRECIATION – TAX BASIS

The identified cost of investments in securities owned by the Fund for federal income tax purposes and its respective gross unrealized appreciation and depreciation at June 30, 2026, was as follows:

Cost for Federal Tax purposes	\$ 14,198,431
Unrealized Appreciation	\$ 182,220
Unrealized Depreciation	(1,667,640)
Tax Net Unrealized Depreciation	\$ (1,485,420)

8. DISTRIBUTIONS TO SHAREHOLDERS AND TAX COMPONENTS OF CAPITAL

The tax character of Fund distributions for the following fiscal years were as follows:

	Fiscal Year Ended June 30, 2026	Fiscal Year Ended June 30, 2025
Ordinary Income	\$ 3,387,959	\$ 2,883,485
Long-Term Capital Gain	-	-
Return of Capital	-	-
	<u>\$ 3,387,959</u>	<u>\$ 2,883,485</u>

As of June 30, 2026, the components of accumulated earnings/(deficit) on a tax basis were as follows:

Undistributed Ordinary Income	Undistributed Long-Term Gains	Post October Loss and Late Year Loss	Capital Loss Carry Forwards	Other Book/Tax Differences	Unrealized Appreciation/ (Depreciation)	Total Accumulated Earnings/(Deficits)
\$ 81,458	\$ -	\$ (910,246)	\$ (11,213,849)	\$ (31,361)	\$ (1,485,420)	\$ (13,559,418)

The difference between book basis and tax basis distributable earnings unrealized appreciation/(depreciation) from investments is primarily attributable to the tax adjustments for accrued dividends payable.

NOTES TO FINANCIAL STATEMENTS (Continued)
June 30, 2026

Capital losses incurred after October 31 within the fiscal year are deemed to arise on the first business day of the following fiscal year for tax purposes. The Fund incurred and elected to defer such capital losses of \$910,246.

At June 30, 2026, the Fund had capital loss carry forwards for federal income tax purposes available to offset future capital gains, as follows:

Short-Term	Long-Term	Total	CLCF Utilized
\$ 4,493,573	\$ 6,720,276	\$ 11,213,849	\$ -

9. REPURCHASE OFFERS

Pursuant to Rule 23c-3 under the Investment Company Act of 1940, as amended, the Fund offers shareholders on a quarterly basis the option of redeeming shares, at net asset value, of no less than 5% and no more than 25% of the shares outstanding. There is no guarantee that shareholders will be able to sell all of the shares they desire in a quarterly repurchase offer, although each shareholder will have the right to require the Fund to purchase up to and including 5% of such shareholder's shares in each quarterly repurchase. Limited liquidity will be provided to shareholders only through the Fund's quarterly repurchases.

During the year ended June 30, 2026, the Fund completed four quarterly repurchase offers. In those offers, the Fund offered to repurchase up to 5% of the number of its outstanding shares as of the Repurchase Pricing Dates. The Fund may under officer approval increase the repurchase percentage above 5%. The results of those repurchase offers were as follows:

10. ACCOUNTING PRONOUNCEMENTS

The Fund adopted the FASB Accounting Standards Update 2023-09, "Income Taxes (Topic 740) Improvements to Income Tax Disclosures" ("ASU 2023-09"), which establishes new income tax disclosure requirements and modifies or eliminates certain existing disclosure provisions. ASU 2023-09 is intended to address investor requests for more transparency about income tax information and to improve the effectiveness of income tax disclosures. The Fund's adoption of ASU 2023-09 did not have a material impact on the Fund's financial statements for the year ended June 30, 2026.

11. SUBSEQUENT EVENTS

Subsequent events after the date of the Statement of Assets and Liabilities have been evaluated through the date the financial statements were issued. Management has determined that no events or transactions occurred requiring adjustment or disclosure in the financial statements other than the following:

The Fund completed a quarterly repurchase offer on July 24, 2026 which resulted in 0.41%, 8.27% and 0.01% of Class A shares, Class C and Class I shares being repurchased for \$20,820, \$ 34,322 and \$865 respectively.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Trustees of
Alternative Strategies Income Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of Alternative Strategies Income Fund (the “Fund”) as of June 30, 2026, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the four years in the period then ended, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of June 30, 2026, the results of its operations for the year then ended, the changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the four years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

The Fund’s financial highlights for the year ended June 30, 2022, were audited by other auditors whose report dated August 29, 2022, expressed an unqualified opinion on those financial highlights.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of June 30, 2026, by correspondence with the custodian. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Fund’s auditor since 2023.

Statement Regarding Basis for Approval of Investment Advisory Agreement

Alternative Strategies Income Fund - SCG Asset Management, LLC*

In connection with the regular meeting held on November 24, 2025 the Board of Trustees (the “Trustees”) of the Alternative Strategies Income Fund (the “Fund”), including a majority of the Trustees who are not “interested persons” as that term is defined in the Investment Company Act of 1940, as amended (the “1940 Act”), discussed the renewal of an investment advisory agreement (the “Advisory Agreement”) between the Fund and SCG Asset Management, LLC (“SCG”). In considering the renewal of the Advisory Agreement, the Board received materials specifically relating to the Advisory Agreement.

The Trustees relied upon the advice of independent legal counsel and their own business judgment in determining the material factors to be considered in evaluating the Advisory Agreement, and the weight to be given to each such factor. The conclusions reached by the Trustees were based on a comprehensive evaluation of all of the information provided and were not the result of any one factor. Moreover, each Trustee may have afforded different weight to the various factors in reaching his conclusions with respect to the Advisory Agreement.

Nature, Extent and Quality of Services. The Trustees noted that SCG was established in 2020 as a subsidiary of Sachs Capital Group, LP which was founded in 2008. The Trustees discussed that SCG was currently managing approximately \$136 million in assets for institutional investors and high net-worth individuals in several strategies focused on opportunities for risk-adjusted returns through investments in structured products among other investments. The Trustees then reviewed the backgrounds of the key investment personnel at SCG, who are responsible for providing services to the Fund, taking into account their education and financial industry experience, and noting no material changes occurred over the past year. The Trustees noted that SCG’s personnel were well experienced with investing in structured notes and had the resources to handle the complex and research-intensive investment process involved with such a strategy. The Trustees noted that Gregory H. Sachs, SCG’s founding Chairman, Chief Executive Officer and Chief Investment Officer, had more than 30 years of asset management experience. The Trustees noted that SCG utilized a proprietary model to analyze investable assets, and to further identify investable assets, SCG has a team of quantitative researchers and risk managers who run screens performing pre-investment stress tests. The Trustees also discussed SCG’s approach to risk management, noting that SCG applies risk management through sector and industry diversification, and the selection of notes that are less sensitive to market volatility. The Trustees noted that SCG is the valuation designee and discussed SCG’s procedures to handle investments that may need to be fair valued. The Board noted that the SCG has progressively adjusted their progress to be more selective of investments while continuing to commit experienced resources to support the Fund. After a discussion, the Trustees concluded that SCG was expected to provide a high level of quality service to the Fund and its shareholders.

Performance. The Trustees noted that the Fund’s performance is not positive compared to its Peer Group Funds selection, provided by SCG, which consists of closed end interval funds with a strategy intended to generate income for end investors. The Trustees noted that the Fund had a yield of approximately 23% before capital losses. The Trustees acknowledged that the Fund’s objective is income and discussed as to whether the Fund had achieved its objective over the prior year. The Trustees concluded that the Fund’s performance was not unreasonable and that SCG was implementing its strategy in accordance with the Fund’s prospectus.

Fees and Expenses. The Trustees compared the contractual management fee of the Fund to the fees and expenses of a peer group of funds provided by SCG with alternative investment strategies and some with similar fee structures. The Trustees noted that the Fund's advisory fee was in the range of the peer group. The Trustees noted that the management of the Fund is very research intensive and actively managed, therefore may cost more than other funds to manage. The Trustees discussed the Fund's current expense limitation agreement and the SCG's willingness to discuss breakpoints in the future as the Fund increases in assets. The Trustees concluded that the Fund's advisory fee was not unreasonable in light of the services the Fund would receive from SCG under the Advisory Agreement, and the level of fees paid by a peer group of similarly managed funds.

Profitability. The Trustees reviewed the profitability analysis provided by SCG. The Trustees considered that SCG was not yet profitable. The Trustees concluded that excessive profitability was not an issue with respect to SCG's relationship with the Fund.

Economies of Scale. The Trustees considered whether economies of scale had been reached with respect to the management of the Fund. The Trustees noted that the Fund had indicated a willingness to continue to evaluate the appropriateness of breakpoints when the Fund reached higher assets. The Trustees agreed that in light of the expense limitation agreement in place, and the SCG's willingness to consider breakpoints in the future, the absence of breakpoints at this time was acceptable.

Conclusion. Having requested and received such information from SCG as the Trustees believed to be reasonably necessary to evaluate the terms of the Advisory Agreement, and as assisted by the advice of counsel, the Trustees concluded that the renewal of the Advisory Agreement was in the best interests of the Fund and its shareholders.

* Due to timing of the contract renewal schedule, these deliberations may or may not relate to the current performance results of the Fund.
